IMPACT

7+ Years in data engineering & analytics

2 Concurrent senior data roles

#1 Class rank, BSc & MSc — Great Distinction

TECHNICAL SKILLS

BI & Visualization

- Power BI
- DAX
- Power Query
- Report Builder

Databases

- SQL Server
- Snowflake
- Oracle
- PostgreSQL
- MySQL

Data Engineering

- ETL / ELT
- Data Warehousing
- Data Modeling
- SSIS
- DBT

Cloud & Platforms

- Azure
- Microsoft Fabric
- Databricks
- Delta Lake

PROFILE

Data Engineering and Analytics professional with 7+ years designing data solutions, building business intelligence systems, and turning complex information into decision-ready insight. Skilled across the modern data stack — Power BI, SQL Server, Microsoft Fabric, Azure, Databricks, and Snowflake — with a track record of improving reporting accuracy, automating manual processes, and helping organizations adopt cloud-based data platforms.

PROFESSIONAL EXPERIENCE

Senior Data Engineer & Analytics Consultant

Feb 2018 — Present

Independent Consultant / Freelancer

- Design and implement end-to-end data solutions that improve reporting, monitoring, and decision-making for client organizations.
- Build interactive Power BI dashboards and SQL-based solutions — stored procedures, data transformations, and performance tuning.
- Guide organizations adopting modern platforms including Microsoft Fabric, Azure, Databricks, and Snowflake, from requirements through delivery.
- Apply data quality and validation checks, and provide technical guidance to raise data literacy among business users.

Fraud Analyst

Mar 2021 — Present

Ethio Telecom, Ethiopia

- Detect GSM, Mobile Money, and international spam fraud by designing and automating SQL-based monitoring queries and dashboards.
- Configure alerts, patterns, and rating plans within the Fraud Management System (FMS); support UAT and security requirements for system upgrades.
- Build BI dashboards and automate previously manual reporting processes to track key indicators and surface fraud trends.
- Translate business questions into analytical solutions in collaboration with cross-functional stakeholders.

EDUCATION

MSc, Computer Science

Bahir Dar University — 2019–2021

CGPA 3.86 · Great Distinction · Rank #1

BSc, Computer Science

Hawassa University — 2012–2015

CGPA 3.85 · Great Distinction · Rank #1

CERTIFICATIONS

Introduction to Data Analytics — Coursera

Python for Data Science, AI & Development — Coursera

Data Visualization & Dashboards (Excel/ Cognos) — Coursera
